# **CULPEPER** HORSE SHOW

Two Thousand People Face a Broiling Sun.

## PERFORMANCES FINE

Prominent Horsemen and Many Ladies Present-The Scene Greatly Enhanced by the Many Fine Turnouts-The Winners.

(From a Staff Correspondent.)

CULPEPER, VA., July 3.—The opening of the Cuipeper Horse Show was not so largely attended as was expected, owing to the fact that the intense heat and the pressure of farm work made it more desirable or necessary to be elsewhere.

The thermometer showed nearly a hundred for several hours to-day, and throughout the afternoon the hottest place in this section of the country was the grandstand, which fronts towards the west, so that the fervid rays of the afternoon sun shone fairly into the faces of the spectators.

The crowd to-day numbered about two thousand people; some estimates make the attendance larger. The visitors are from a half dozen countles—Orange, Rappahannock, Prince William, Fauquier and Loudoun.

Some of the representative horsemen of the State are in attendance, and many ladies, who are as well known lovers of the horse as their husbands, are here also. They were much in evidence at the grounds this afternoon, one of them spending some hours in the judges' stand. A GRAND BALL.

It was at the ball to-night that the fair sex showed resplendent. Fifty couples danced until a late hour, and it would be hard to find even in Pledmont Virginia an assemblage of prettier women or handsomer men. A great feature of to-day was the large number of handsome turnouts in which the residents drove in from the surrounding country.

was the large number of natural versus in which the residents drove in from the surrounding country.

Fauquler is known as the home of the fine horses of Virginia, but I did not see at the Upperville show, a few weeks ago, as many pretty turnouts as were on the grounds here to-day. This is only one of the many indications that Culpeper is among the most prosperous countles of the State, of which I will have something to say later.

The entries this year are fully up to the high average of the Culpeper show, and the performances of the hunters were excellent. Nearly all of the horses shown are native to this country or immediate section.

while the attendance to-day was rather disappointing in size, it is confidently predicted that there will be a large turnout to-morrow, a holiday; and if the day is as warm as this bas been it is perfectly safe to predict a hot time in the old town.

### **POWHATAN COUNTY**

The Question of a Primary is a Live Issue.

(Special to The Times-Dispatch.

POWHATAN C. H., VA., July 3.—Judge Vm. M. Smith held a special court here few days ago and all of the county officers renewed their bonds for the holdover term under the new Constitution.
Next Monday is regular County Court
day, Judge Smith will preside. One or
two merchants have posted their notice
that they will make application to the
court on that day for a whiskey license
to sell by retail.

Politics are at fever heat, there being
several candidates for all the county offices and the County Democratic Committee has been called to meet here Monday to decide whether or not a Democratic primary to nominate candidates for
county offices will be held.

The people are divided on this question
and a large majority are against holding
a primary for county officers.

A large crowd of people are expected
here Monday as the subject of primary
is being more discussed than the candidates.

There will be a game of ball played at ficers renewed their bonds for the hold

There will be good music and refreshments.

Mr. John C. Wilburn, of this county, died at his residence near Trenholm, on July 1, 1903. He was about fifty-three years of age. He died of heart trouble. He was for years constable of Macon District and was well and favorably known. He leaves several children. His remains were interred in the family cemetery near his home yesterday.

The Compostella bridge across the Eastern Branch was aftre last night. Two trolley cars of the Berkley division of the Norfolk Railway and Light Company, which were filled with passengers, were on the bridge at the time a live wire overhead snapped and began sputtering streaks of blue flame, which set fire to the bridge. The crews of the cars, assisted by citizens, obtained buckets of water and extinguished the flames. Meantime some one turned in the fire alarm. When the engines arrived the fire had been put out, and after a short delay traffic was resumed.

KILLED BY THE "CANNON BALL."

Reuben Wilson, colored, was struck and killed by the Norfolk and Western "Cannon Ball" train last night a short distance from the South Norfolk station. The train is due in Norfolk at 5:20 o'clock in the afternoon. There was no eye witness to the tragedy. The man was hit and carried about fifteen feet. His right leg was cut off and there were wounds on his arm and head. He lived in the Campostelia neighborhood, and is said to have been subject to fits. His age was about twenty-three years. The remains were identified by his father and brother. After the coroner's inquest they took charge of the body.

THE MANN BILL.

The case of Claude Capps, charged with selling liquor to a minor, came up in the Police Court this morning. Justice Taylor fined the saloon keeper, who has a place on Avon Street, \$100 and costs. An appeal was noted and the case goes before the jury of the Corporation Court as the first of the kind under the new Mann law. It is the impression that if found guilty under the Mann law of such an offense, the license to sell whiskey at retail will be forfeited.

The case will be regarded as a test of the efficiency of the stringent law. If the jury can be convinced that the saloon keeper is guilty there seems to be no question in the minds of the law sharps that the license will be ancelled. Of course, there will be an appeal, and there will be other means of modifying the rigors of the law. But they have not been suggested yet.

# **ECHOLS' PIEDMONT** CONCENTRATED IRON AND ALUM WATER

THE GREAT NATURAL MINERAL WATER REMEDY,

men and women from all over this country have been cured of Chronic Diseases after man-made medicines failed. Not one of these persons had to leave home to take the treatment. It is no longer necessary to spend time and money by going to the springs. The Water is reduced to such a degree that so unces of it counts 10 gallons of the Natural Water, and produces much better results than if this quantity was used in the springs. The Concentrated Water contains 20 different minerals, which are nearly identical with those composing a healthy human system. When a person is sick, it shows that some of these important minerals have escaped, and health cannot be expected until they have been replaced.

There is no treatment known to science which restores lost vitality like

Piedmont Concentrated Iron and Alum Water.

Piedmont Concentrated from and Alum Water.

If you have two or three complaints, it will cure all of them just as easily as if you had only one, for it gets into your system thoroughly and gives to every organ of the body that which is needed, whether it be iron, magnesia or aluminum, etc.

Should there be several sick ones in your family, give the Concentrated Water a trial for your own disease—this will prove what we have said; then let them all drink at this Celebrated Mineral Spring, which you have placed under your own roof.

If we cannot benefit you, your money is not wanted, but we have yet to see a person give it a fair trial without being cured or greatly benefited.

Such diseases as Indigestion, Rheumatism, Kidney and Bladder Troubles, Catarrh, Female Complaints, Torpid Liver, Stomach and Bowel Troubles, Scrofula and all Blood Diseases are being cured every day by this Remedy, and we want every person in need of such treatment to give it a trial.

Mr. Maleester formerly weighed over 300 pound and was stout to an unusual degree, although active and seemed to enjoy perfect health, During the past year, however, he was attacked by some form of stomach frouble, and since that has been unable to eat anything, simply a little beef tea or something of that sort. The result is that he has gradually wasted away, and now weighs less than seventy-five pounds, He has become very weak and death be expected.

Rev. Charles Scanlon recently resigned his position in McAlester College, Minneapolis, as professor of biblical history, to clearly for the National Committee of the Prohibitionists, and is now filling engagements in this State. During the gubernatorial contest in his State, Mr. Scanlon, who was a candidate, used an automobie on his lecturing tour. He is from flampshire county, and is a brother of Rev. C. D. Scanlon, of Berryville.
